

OBJECTIVES

Discovering and using the enneagram

The enneagram is a personality study system in 9 profiles. Each profile describes beyond our behavior, what motivates us unconsciously. It has a very old human observation background, and allows everyone to identify their strengths and weaknesses, to discover their potential for development, to have keys to improve their relationship with others, especially in the context of a team.

In this workshop, we offer dynamic paths to evolve towards the best of yourself, for more harmonious relationships, whether they are personal or professional.

TOOLS

- Interactive methodology
- Role - Play
- Body movement
- Videos
- Group and pair exchanges

IN PRACTICE

- Public : All
- Durée : 4 days (2x2)
followed by individual coaching

A HR business advisor, Pierre Angotti has led self-awareness and personal development sessions with the enneagram for 18 years. He was the president of the French-speaking enneagram association for two years (2017-19). Pierre has published works on the Enneagram including *Opening up to joy with the enneagram, welcoming and overcoming our weaknesses*.

« The enneagram allows us to identify both the richness of our personality and our weaknesses. The human being is much more than his personality, and the enneagram helps us to acquire greater human maturity »
